

PDC 2004

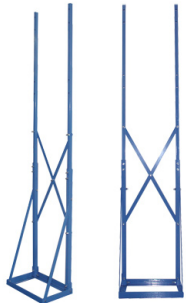

Did you know that Amico had the largest display booth at the PDC 2004 Exhibition?

The booth, which spread over 20 x 30 feet, demonstrated the latest Amico products.

We were pleased to receive many compliments from the architects and engineers that stopped by.

Nema 4 Stand

Model # M2-FLOOR

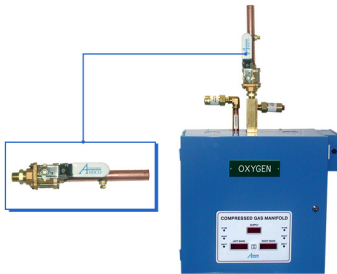

Did you know that the Amico Manifold Floor Stand now supports both standard and Nema 4 Manifolds?

The Amico X-Bracket Stand is still available as an option for mounting the manifolds directly on the wall.

Amico X-Bracket Stand
Model # M-X-MAN-SUP

Isolation Valves for Manifolds

Model # VV-ISO-M-07

Did you know that all Amico Manifolds are now shipping with a 3/4" isolation valve?

The Valve comes complete with a gauge port for installing a pressure switch.

Amico Vacuum Systems

Did you know that Amico USA has introduced a new series of oil lubricated, rotary vane vacuum pumps?

This new series, runs cooler and has more capacity at the same horsepower. The higher efficiency reduces the run time, extending the service life of the vacuum pump and also reduces the electric power cost of operating the vacuum system.
